## **Trick-or-Treating in Evesham Township scheduled for Oct. 31 – Halloween Night**

As we move into October, some residents may have questions regarding Halloween and trick-or-treating activities in Evesham Township during the current health crisis.

As of the time of this message (Oct. 1), trick-or-treating in Evesham Township is still scheduled to take place on Oct. 31, barring any future Executive Orders from the Governor's Office that might limit or prohibit trick-or-treating.

Similar to years past, it is the township's recommendation that trick-or-treating take place between the hours of 3 p.m. to 8 p.m. on Oct. 31.

However, given the current health crisis we are still facing, Evesham parents and/or guardians are reminded to adhere to proper social distancing and healthy hygiene guidelines, such as:

- Keep your group "bubble" small – stick to just family and others in your household, and keep at least six feet apart from others.
- Sanitize your hands frequently.
- Wear a face covering over your mouth and nose. If you or your child's costume includes a character mask, please still wear a face covering over your mouth and nose underneath the character mask. Avoid costume masks that obstruct vision.
- It is highly recommended to leave candy at the end of your walkway or on your step in a bowl or container. Any resident who does decide to give out candy directly should wear a face covering over their nose and mouth, as well as use hand sanitizer frequently during the distribution.
- And as always, if you are not feeling well, stay home!

While this year's Halloween experience will certainly be different, we still want to ensure that all our children and families have an enjoyable, and above all else, a safe Halloween.

Should any of this information need to change, this message will be updated accordingly.
